

THE GALLERY

Extell Development Company and Corcoran Sunshine Marketing Group just celebrated the top real estate brokers who have played an integral role in making Extell's buildings incredibly successful this year. The event, held in the amenity spaces at the Rushmore, also included an unveiling of the Tower Residence model. Among Extell's other New York developments are 535 West End Avenue, the definitive Upper West Side address that honors the distinguished design of pre-war architecture; The Lucida, a new vision for modern green living on the Upper East Side; Ariel East and West, two exquisite glass towers in the West 90's; and 995 5th Avenue, the master renovation of an Upper East Side classic. Pictured right are Corcoran Sunshine's Kelly Mack, Gary Barnett, president of Extell.
